# UW Laboratory Employee Safety Training Checklist

According to state/federal laws and University of Washington policy, Principal Investigators and laboratory supervisors are responsible for ensuring that all employees receive adequate training to understand the hazards present in their work area. This includes administrative personnel who handle lab chemicals for such tasks as receiving, inventory, and stocking. Training must occur prior to assignments involving potential exposure to chemicals. EH&S provides general training for most categories of hazards in the laboratory. EH&S strongly encourages and in some cases requires that employees take these classes since they cover topics that are specific to the University of Washington and Washington state. Laboratory staff must also receive training applicable to all UW employees such as an orientation to the department Health and Safety Plan, Emergency Evacuation and Operations Plan, Asbestos General Awareness, Violence Prevention, etc.

**Employee Name:** ___________________________  **Date:** __________

**Supervisor Name:** ___________________________  **Date:** __________

## Laboratory Specific Training

The below types of training are required for each laboratory staff person and are to be provided by the Laboratory P.I., Manager, or Chemical Hygiene Officer. Details about each subject are discussed in Section 7 of the UW Laboratory Safety Manual, online at [http://www.ehs.washington.edu/manuals/lsm/index.shtm](http://www.ehs.washington.edu/manuals/lsm/index.shtm).

### Have you received the following?

<table>
<thead>
<tr>
<th>Training Details</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Orientation to the content and location of the Chemical Hygiene Plan, including:</td>
<td></td>
</tr>
<tr>
<td>- UW Laboratory Safety Manual</td>
<td>YES</td>
</tr>
<tr>
<td>- Lab-specific Standard Operating Procedures (SOPs)</td>
<td>YES</td>
</tr>
<tr>
<td>- Other lab specific information</td>
<td>YES</td>
</tr>
<tr>
<td>Methods for finding exposure limits</td>
<td>YES</td>
</tr>
<tr>
<td>Material Safety Data Sheets/Safety Data Sheets (MSDS/SDSs) and other safety references</td>
<td>YES</td>
</tr>
<tr>
<td>The hazards of the workplace and how to detect the presence or release of hazardous chemicals and the basic signs and symptoms of chemical overexposure</td>
<td>YES</td>
</tr>
<tr>
<td>Requirements for Personal Protective Equipment (PPE) and how to select, don, doff, and maintain it</td>
<td>YES</td>
</tr>
<tr>
<td>How to segregate and safely store chemicals in the laboratory</td>
<td>YES</td>
</tr>
<tr>
<td>Proper disposal of all laboratory waste</td>
<td>YES</td>
</tr>
<tr>
<td>How to safely clean up spills and respond to other emergencies</td>
<td>YES</td>
</tr>
</tbody>
</table>

## EH&S Laboratory Safety Training

**Answer the following questions. If YES, fill in the date when the training is completed. For more information about the classes, see [http://www.ehs.washington.edu/psotrain/index.shtm](http://www.ehs.washington.edu/psotrain/index.shtm) or contact the EH&S Training Office at ehstrain@u.washington.edu or 206.543.7201.**

### Are you responsible for chemical safety in your laboratory?

- No
- Yes, if Yes, take the Laboratory Safety Standard Compliance class.

<table>
<thead>
<tr>
<th>Date</th>
</tr>
</thead>
</table>

### Do you work with hazardous chemicals?

- No
- Yes, if Yes, take the online/classroom Managing Laboratory Chemicals class.

### Do you need to wear a respirator on the job?

- No

### Do you work with any form of recombinant DNA, pathogenic microorganisms, human/non-human primate tissues or other biohazardous agents?

- No
- Yes, if Yes, take the Biosafety Training class. (Initial and every three years thereafter)
# UW Laboratory Employee Safety Training Checklist

**Will you work in an Animal Biological Safety Level-3 or Biological Safety Level-3 Laboratory?**

- [ ] No
- [x] Yes  
  If Yes, contact EH&S Research and Occupational Safety at 206.221.7770 additional training may be required. REQUIRED

**Are you planning to work with Select Agents?**

- [ ] No
- [x] Yes  
  If Yes, contact EH&S Research and Occupational Safety at 206.221.7770 additional training may be required. REQUIRED

**Do you work with human cells, tissue or body fluids?**

- [ ] No
- [x] Yes  
  If Yes, take the online/classroom Bloodborne Pathogens for Researchers class (Annual training) REQUIRED

**Are you planning to use ionizing radiation?**

- [ ] No
- [x] Yes  
  If Yes, follow the instructions at: [http://www.ehs.washington.edu/rso/index.shtm](http://www.ehs.washington.edu/rso/index.shtm). REQUIRED

**Are you planning to use non-ionizing radiation?**

- [ ] No
- [x] Yes  
  If Yes, contact EH&S Radiation Safety at 206.543.0463 additional training may be required. REQUIRED.

**Are you planning to use class 3b or 4 Lasers with a power greater than 5 milliwatts (mW)?**

- [ ] No
- [x] Yes  

**Are you expected to use a fire extinguisher in the event of an emergency?**

- [ ] No
- [x] Yes  
  If Yes, take the Fire Extinguisher Training class (Annual training) REQUIRED

**Do you package, ship, and/or transport hazardous materials or infectious substances?**

- [ ] No
- [x] Yes  
  If Yes, take the Shipping Hazardous Materials class or if applicable, the “Online Shipping Biological Substance Category B” or the “Online Shipping Dry Ice with non-dangerous goods or Exempt Patient Specimens” (Initial and every two years thereafter) REQUIRED

**Do you use a fume hood?**

- [ ] No
- [x] Yes  
  If Yes, you should take the online Fume Hood class. (For more on fume hoods see [http://www.ehs.washington.edu/ksfumehoods/index.shtm](http://www.ehs.washington.edu/ksfumehoods/index.shtm))

**Do you handle cylinders containing hazardous, toxic, or flammable compressed gases?**

- [ ] No
- [x] Yes  
  If Yes, you should take the Compressed Gas Safety class.

**Are you expecting to work with Hydrofluoric Acid?**

- [ ] No
- [x] Yes  
  If Yes, you should take the Hydrofluoric Acid Safety class.

**Have you volunteered to be one of the First Aid and CPR staff for your lab?**

- [ ] No
- [x] Yes  
  If Yes, take the First Aid and CPR Certification class. (Initial and every two years thereafter) REQUIRED

### Additional Specific Training

*Use this section for any additional safety training needed in your laboratory due to “unusual hazards” such as forklift operation, confined space entry, maintaining powered equipment [lockout/tagout], working at heights [fall protection], lifting safety, or perchloric acid fume hood use.*

---

*After all of the training has been completed have the new employee sign and date this form and save it in your laboratory training records.*
