

## Toxic Gas List

This is a list of known toxic gases. Mixtures with these gases may also be considered toxic. Refer to the definition as outlined in the program overview for other gases.

ammonia	diborane	monomethylamine
arsenic pentafluoride	dichlorosilane	nitric oxide
arsine	dinitrogen tetroxide	nitrogen dioxide
boron trichloride	ethylene oxide	phosgene
boron trifluoride	fluorine	phosphine
bromine pentafluoride	germane (GeH <sub>4</sub> )	phosphorous pentafluoride
carbon monoxide	germanium tetrafluoride	phosphorous trichloride
carbonyl fluoride	hexafluoroacetone	phosphorous trifluoride
carbonyl sulfide	hydrogen bromide	selenium hexafluoride
chlorine	hydrogen chloride	silicon tetrafluoride
chlorine dioxide	hydrogen cyanide	stibene (SbH <sub>3</sub> )
chlorine pentafluoride	hydrogen fluoride	sulfur tetrafluoride
chlorine trifluoride	hydrogen selenide	sulfuryl fluoride
chloromethyl methyl ether	hydrogen sulfide	tungsten hexafluoride
cyanogens	methyl bromide	vinyl chloride
cyanogen chloride	methyl mercaptan
