SCENARIO 1: You tested positive for COVID-19.

Regardless of your vaccination status and regardless of whether or not you have symptoms.

STAY HOME AND SELF-ISOLATE.
Do not go to work or class for 5 days since your symptoms started, 5 days since your test date (if you have no symptoms), or as instructed by a contact tracer.

ENTER YOUR WA NOTIFY PIN.
Your contact tracer will give you a PIN number to enter in your mobile device to confidentially alert close contacts.

WEAR A MASK.
Wear a well-fitting surgical mask or KF94/KN95/N95 around others at home and in public for 5 additional days (through day 10). Follow additional CDC restrictions for travel, eating, and other activities.

COMPLETE THE ELECTRONIC SURVEY.
The COVID-19 Response and Prevention Team will send you a link to a health survey prior to the end of your isolation period.

Did your symptoms improve after 5 days of isolation?

<tbody>
<tr>
<td>NO</td>
<td></td>
</tr>
</tbody>
</table>

End isolation after day 5 if you are fever-free for 24 hours without the use of fever-reducing medication and your other symptoms have improved. Students in residence halls follow additional requirements communicated by the contact tracer.

If you take a home rapid COVID Antigen (Ag) test at 5 days or after and it is positive, you should continue isolation for a full 10 days.

SCENARIO 2: You were in close contact with an individual who tested positive for COVID-19.

You are current on COVID-19 vaccination and booster doses and/or you have tested positive for COVID-19 in the past 90 days using a viral test.

SCENARIO 3: You have a symptom(s) of COVID-19 but no known exposure to a COVID-19 positive individual.

STAY HOME AND ISOLATE.
Do not go to work or class regardless of vaccination status.

GET TESTED IMMEDIATELY.

You do not need to stay home. You can return to work and/or class.

You do not have to work and/or class. Wear a well-fitting surgical mask or KF94/KN95/N95 when around others at home and in public.

You cannot return to work and/or class if all of the following apply to you:

1. Your symptoms are mild; and
2. Your symptoms have improved; and
3. You have not had a fever for at least 24 hours without using fever-reducing medication.

If your symptoms are severe or getting worse, stay home, contact covidehc@uw.edu and consult a health care provider.

STAY HOME AND QUARANTINE.
Do not go to work or class for 5 days since your last exposure or as instructed by the contact tracer.

Wear a well-fitting surgical mask or KF94/KN95/N95 when around others at home and in public for 10 days.

UNIVERSITY’S QUARANTINE AND ISOLATION GUIDANCE

GET TESTED AT LEAST 5 DAYS AFTER EXPOSURE or immediately if you are unsure when you were exposed.

GET TESTED IMMEDIATELY.

Questions, contact covidehc@uw.edu or 206.616.3344 to reach the COVID-19 Response and Prevention Team in the UW Environmental Health & Safety Department. Email is preferred.

Get tested immediately if you were notified of exposure by WA Notify. Do not know when your exposure occurred or are unsure or concerned you may have been exposed.

Immunocompromised individuals should talk with their healthcare provider about the duration of isolation. Additional requirements are followed by students in residence halls and athletics programs.
