

LASER WORKER SAFETY TRAINING RESOURCES

[Laser Worker Safety Training](http://www.ehs.washington.edu/training/laser-worker-safety-training-online) (www.ehs.washington.edu/training/laser-worker-safety-training-online) must be completed by all University personnel who may be exposed to laser radiation from a Class 3B or Class 4 laser in the course of their work, including PIs, students, fellows, lab managers, and research staff.

The following resources are described in the training and are available to all University personnel:

UW Environmental Health & Safety [Radiation Safety](#)
